

Democratic Ticket.

FOR CONGRESS,
A. O. STANLEY,
OF HENDERSON.

The Weather.

For Kentucky—Partly cloudy Saturday. No decided change in temperature.

The triumph of the tariff reformers in the Republican convention of Iowa was complete.

The soldiers' encampment at Henderson will be called Camp Harris, in honor of Mayor Harris.

The State Election Commissioners will meet August 30, to appoint the county boards.

Henry D. Smith, a college boy of Beloit, Wis., died of exposure in his efforts to rescue Miss Ruth Macomber from drowning the day before.

Judge C. O. Stockslager, the Democratic nominee for Governor of Idaho, is a native of Southern Indiana.

The scrubwomen of Chicago have floored their employers by going on a strike, out of sympathy for the striking window washers.

The Democrats of Iowa in convention at Waterloo harmonized all differences, nominated Claude Porter for Governor and endorsed Bryan for President.

Judge Gordon, of Hopkins, and Judge Sandidge, of Muhlenberg, should exchange ideas with Judge Judge, of Graves, on the question of spele trials for negro rape fiends.

The campaign against statehood, as proposed, has opened in Arizona. Indications are that a large majority of both parties will oppose admission jointly with New Mexico. Under the law passed, the rejection of the terms by either territory will defeat statehood for the present.

Frank Ball, the Bell county desperado, who escaped from jail at Richmond, Ky., was captured Thursday near Rose Hill, Va. He was surrounded in a cabin with John Lee and a fierce battle with a posse ensued, in which Lee was killed, when Ball surrendered. He has been taken to the Frankfort prison.

Mammoth Radish.

The latest contribution to the Kentuckian's collection of vegetable freaks is a radish brought in by Mr. C. H. Faulkner, of Gracely. It is of the turnip variety and measures 16 inches in circumference and weighs 2 1/2 lbs. It grew in a row with other radishes and did go to seed.

Great Reduction In Prices of Wall Paper

Nobody is absolutely infallible. We all make some mistakes. One of our mistakes of last season was buying too much wall paper.

We want to turn our surplus stock into cash for two reasons, viz: We need the cash and want to make room for the new fall stock. In order to do this,

We will for the next ten days, beginning Monday, July 16, sell everything in the WALL PAPER line at greatly reduced prices. We mean business.

W. A. COOPER & SON,
(Successors to J. A. Menden.)

CARE OF AMERICAN SOLDIER UNDERGOING MODIFICATION

English Tailoring Expert Brings Back His Country by War Department to Design New Style of Army Dress.

I think you have occurred to most people who have seen the smart, dapper dress of the enlisted men that there was any opportunity for improvement in appearance or utility of the present uniform, but nevertheless this is one of the matters which is always receiving consideration by the war department with a view not only of providing the most comfortable and most serviceable style of dress, but also one which will be as inconspicuous as possible upon the field of battle. This latter reason is the chief one why the khaki cloth was adopted some few years ago, but it seems that it is impossible to provide this kind of material in sufficient quantities to supply all the needs of the army, so that it is proposed to equip only that part of the army with khaki uniforms which are serving in the Philippines and other warm sections of American territory.

This leaves a large part of the army to be provided for with other style of uniform, and the matter has been taken up with energy by the war department, which is going into the question so thoroughly as even to send to England and bring over a military tailoring expert, who will give his ideas as to what the uniform of the United States soldier should be in design and fit.

George V. Winter, the man upon whom devolves this responsibility, is himself a soldier, having seen service in the South African campaign during which time he had ample opportunity of studying the needs of the soldier in actual service. He is a man verging on middle life, and has a rather full figure and dark mustache and hair.

Mr. Winter's South African experience was used to considerable profit, for he was able to design various articles of military equipment which were adopted at once. He was the creator of the puttee leggings, originated for special facility in marching, doing such work with the buttons and straps, and which is not only neater and smarter in appearance, but far more serviceable than the leggings used in our own army. He has also invented a special system of lacing for the knees of cavalry breeches, which garments he has turned into a different shape from those worn a few years ago.

Discussing the American soldier, Mr. Winter said he had been surprised to find that the American private was the best looking soldier in the world.

"I find he is at least an inch broader in the shoulders than the average English private. I was, indeed, almost astonished to find your men of the ranks so well set up. In figure they are smarter, or, perhaps I should say, more lithe, than our men generally.

"From the measurements I have taken it appears that the average American soldier is from a half to three-quarters of an inch taller than those Americans who are familiar only with the appearance of our life guard, but, then, the latter are all selected for their height and physique, and consequently are exceptional.

"There is no doubt that the American private far outclasses the French, not only in dress, but also in physique. You see, the Frenchman is bound to become a soldier. It is not a matter of choice with him, as it is with the American. In consequence, the French army is recruited from all classes and the result is that a regiment is apt to present far from a homogeneous appearance.

"In the German army service is of course obligatory but the officers make the men work hard, and manage to lick them into fairly good shape. Still, the German soldiers are thrashed up too much.

"We in England like the forage cap very much. You see the small chin strap compels a man to keep his hair dry, his head up in its proper place and his mouth closed. I must admit I don't like your felt hat as well as your cap. About the canvas leggings your soldiers wear I cannot speak. Our men wear the winding puttees."

Man Who Has Come to Help Dress Uncle Sam's Soldiers.

IN BERRY CASE, HIGHLY HONORED

Verdict That Mrs. Berry's Death Demands Investigation.

HUSBAND CHARGED.

Alleged She Was Struck in Stomach and Never Gained Consciousness.

At the inquest held over the dead body of Mrs. W. B. Berry Tuesday there was so much evidence of violence that the coroner's jury recommended that the grand jury make an investigation. It was found that she had some bruised places on her body and testimony was given to the effect that her husband had been seen to strike her with a tin pan in the stomach.

The woman gave birth to a child only a few days before and was barely able to be up. She ran screaming from the house and fell unconscious in the yard. Neighbors picked her up and took her into the house and she died without regaining consciousness. The woman was buried Wednesday by the county authorities. Berry has not been arrested. He has a family of children in the most abject poverty. County Attorney Duffy is trying to arrange for the children to be sent to some home.

Suit For \$7,000.

A suit was filed in the circuit court last Thursday by F. K. Yost against P. J. Brownell, in which the plaintiff seeks to recover nearly \$7,000. In his petition Mr. Yost states that when he assumed his duties as manager of the Crescent Mills Mr. Brownell, in addition to the regular salary of \$100 per month, was to allow him whatever excess there might be over a dividend of 6 per cent. on his stock. During the three years Mr. Yost has been with the mills he claims that nearly \$7,000 is coming to him on his contract with the defendant, who, until recently, owned a controlling interest in the mills.

Ball Games Next Week.

Next Monday, Tuesday and Wednesday there will be ball at Mercer park between the Cheek-Neal team and the Bassett team, of this city.

W. T. COOPER & CO.,
Red Front Grocery.

Large Men. Stout Men.

Men who think they are hard to fit because they are out of the ordinary—can dress as neatly and becomingly as the most perfect tailor's model.

Inexpensively? Yes, extremely so. It's not the price that makes the fit; it depends entirely on the design and tailoring. Schloss Bros. & Co., of Baltimore and New York, are known the world over as Specialty makers of fine Ready-to-Wear Garments. They have made a study of draping large, stout men and men out of the ordinary proportions.

What we mean by "draping" is not merely "dressing," or "clothing." We mean fitting them perfectly in garments particularly designed to moderate where nature has been profuse and to fit out where nature has been deficient.

In other words, this Schloss clothing not only clothes the figure, but "drapes" it as well,—makes the style of the moment seem to have been especially designed for the wearer.

A trial is all that's necessary to convince you. Come to see us. Try one of these Schloss specialties and you will be surprised to see how well-proportioned and handsomely dressed you can look by simply wearing clothes especially designed by these skillful tailors to fit men of just your build and physique.

Prices are not high! To the contrary, very reasonable, because these celebrated clothes makers cut and tailor these goods in large quantities by the wholesale, and they cost you no more than similar clothes of ordinary size.

We are certain that if you come in and try on one of these suits you will become a permanent patron, and thank us for the suggestion.

Yours truly,

J. T. WALL & CO.

The Old Reliable Jewelry House

of Hopkinsville is, after all, the best place to get anything in the jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any Jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

M. D. KELLY,
N. Main St., Opp. Court House.

New York Life.

Hopkinsville, Ky., April 30th, 1906.

Mr. Walter F. Garnett, Agent,
New York Life Insurance Co., City.

Dear Sir:—It gives me pleasure to acknowledge receipt of statement of optional settlement on 20-Payment Life Policy, No. 223,593, for \$1,500.00, issued at age 35, with premium of \$52.50, taken out with you Apr. 29, '86. After having been insured for 20 years, I am offered a paid up policy for \$1,500 and a cash dividend of \$406.88, or the total value may be withdrawn in cash—\$1,215.85, (which is more than I have paid in (in the 20 years) or a fully paid up policy payable at my death for \$2,219.00.

The cash settlement of \$1,215.85 is equal to Term Insurance at \$12.87 per \$1,000 and an investment of the balance of premiums with 5 1/2 per cent. compound interest for twenty years. This showing is certainly a creditable one for the New York Life, and I will be pleased to give you my application for \$1,000 on the Ordinary Life plan.

Yours very truly,
C. E. WIST.

VERY BUSY ON BELT LINE.

Railroad Grading, Brick Laying and Foundation Building Going On.

TRACK LAYING SOON ON.

First Story of American Snuff Co's. Big Building Up.

Things are humming out on the belt line. It will pay all to visit that part of the city. When they see what is being done out there they will want to get busy themselves. In fact it will prove to be an inspiration to both the idle and the busy. Even the "retired" man will feel like beginning life's struggles anew, his imagination will leap forward fifty years and he will begin wondering what Hopkinsville will be half a century hence.

THE RAILROAD. It is probable that the engine of the construction crew will nose its way up to Eighteenth street the first of next week—in fact it is highly probable. Thursday afternoon the entire road-bed was graded and ready for the ties excepting a fill just beyond Twenty-first street. The fill lacked only about forty feet of being closed and as many scrapers as could be well used were closing up the gap from both sides. There have been scattered all along the line and track laying was going on east of Virginia street. The work of completing the great artery of future industries in the southern end of the city is being pushed with unusual vim in order to meet the demands of the industries now under way.

THE SNUFF COMPANY. The immense brick building of the American Snuff Company is going up as rapidly as possible. This monster building is 150 feet long by 120 feet in width. It will be two stories in height, with fire-proof roof. Its equipment in the way of boilers, engines and other machinery necessary in handling tobacco at all times, will be of the highest grade. The company will have one of the best houses in the country and will employ a large number of hands. But the building now half up will not be sufficient for the transaction of the business to be done here. Just west of the present building, across the industrial railroad, the erection of another large building will be commenced when the first one is completed. Both the buildings will be protected by automatically supplied streams of water.

THE WAGON FACTORY. Everybody knows that the Forbes Manufacturing Co. has had under contemplation for two or three years the building of an immense wagon factory. A suitable location for the works was not to be obtained until the belt line project grew into a certainty. This enabled the company to secure several acres of land lying just as was desired. The popularity of the different size "Mogul" wagons has forced the company to increase its output several hundred per cent. The new building will be sufficient for this and the manufacture of lawn mowers and other specialties now being turned out by the company. The wagon factory will be 316 feet long by 150 in width. Some distance from the factory the company will have a large building in which to protect its seasoned lumber from rains and damp weather, as well as a drying house, where every particle of sap and dampness will be taken out of the lumber by heat.

THE WATER TOWER. The Forbes Manufacturing Co. will also build a water tower for the use of its plant and protection from fire. It will be 150 feet or more in height and hold 90,000 gallons. This is a wise precaution. This tank will furnish the automatic fire plugs with water.

CLIMAX MILLS. The Climax Milling Co. has not yet received its plans for the building in which will be located its mill machinery. The plans are being drawn by the architects of the company that was awarded the con-

tract for putting in the machinery. It is necessary to have the plans drawn to the satisfaction of a tall and able architect. A few days since he said that the plans and specifications should be in hand in four or five days and as soon as received the company would proceed to place the contracts for the main and adjacent buildings. The stables of the new company are going up rapidly. Thursday work had so far progressed that the building was almost ready for the roof. The mill will be located on the north-east corner of the belt line and 21st street.

GRAIN WAREHOUSE. Mr. W. D. Stowe's seed storage warehouse is also rapidly nearing completion. This building is on the southern side of the belt line, not far from where the road crosses Virginia street. It is a very large building with concrete floor, put down by the Meacham Engineering & Construction Co., and is the best piece of concrete work ever done here. The building is perfectly adapted for the purpose for which it was intended and Mr. Stowe's new feature in the business of Hopkinsville will undoubtedly prove a great success.

THE WATER CO. The water company, with great foresight and commendable enterprise, in two or three weeks will extend its water mains out to Bell's addition to the city. The company is planning for the future. Instead of putting a 4-inch main as required under its franchise, it will continue its Virginia street main out to a point near the eastern end of the American Snuff Co's building with 6-inch pipe. This additional 6-inch main will be 1,820 feet in length. It will also tap its main on South Walnut street with a 4-inch main 570 feet long and joining the 6-inch main at the point above indicated. By this union of the two mains the force of the streams furnished the different industries for fire protection will be almost equal to the force in the central part of the city. Mr. Thos. W. Morris, the manager for the company, with his usual foresight, is originator of the double-stream force to thus keep down the insurance rates of the property owners. The fire insurance companies require only a 4-inch pipe, but in order to prevent any trouble with insurance companies in the future development of the city has largely increased, not only the flow of water, but greatly increased the pressure. In a few days he will put a large force of laborers at work putting in the main, which begins nearly opposite the residence of Mr. H. H. Abernathy, and prosecute the work to rapid completion.

The new street, running from 18th to 21st will be a great convenience. In fact this street should have been opened years ago. This street is wide enough, probably, for Hopkinsville of today, but in ten years from now there will be a general regret that it was not made 50 or 60 feet in width instead of 30. Greater Hopkinsville will demand broader avenues, and this one particularly. Bell's addition will in a few years be a town of itself, and this main avenue, for leading from the center of the city to the new town, should be wide enough at the beginning of the city's spreading itself over more territory.

In this article we have given our readers an indifferent picture of what the southern portion of the city is at present and drawn a few lines as to its future. When you go out there you will see much more than we have drawn and you will wonder at what has been done and the great change wrought since John H. Bell, Jr., and his associates last year conceived the idea of purchasing and putting on the market the most desirable section of land in and outside the city limits for different industries. All the land, at the time, was not inside the corporate limits, but Mr. Bell soon opened up and metaled two avenues and let all his purchase inside the city. Let us hope that Mr. Bell is not yet at the end of his career but that in the future, as a developer, he may do many other things for Hopkinsville.

Mrs. Quarles Entertains. F. M. Quarles entertained the younger set last night at her hospitable home East of town. The young people from the city went in two hay wagons sent in for them. It proved to be one of the delightful events of a very gay summer. Refreshments were served.

INJURED MAN

Found On Railroad in Unconscious Condition.

A young man by the name of W. D. Stowe was carried to the Sanitarium Thursday in an unconscious condition. He was found by the men who, with Sam Flemming, the engineer, work in the L. & N. yard. He was lying on the side of a new sidewalk with a deep gash on one side of his head, a broken arm and a cut on his face. After being carried to the Sanitarium he recovered consciousness but could not tell how he received his injuries. His home is in Lexington. He will be able in a few days to go home and remain until he is able to come back and resume work.

ANNOUNCEMENT.

We are grateful to the citizens of Hopkinsville and the surrounding country for the liberal patronage our school has enjoyed during the past two years and shall endeavor to merit the good will and esteem of our pupils by giving them the advantage of thorough instruction under painstaking and competent teachers. Our fall term begins Monday, Sept. 3, at which time classes will be organized in Bookkeeping, Penmanship, Business Arithmetic, Spelling, English, Short-hand and Typewriting.

Our rooms over the Bank of Hopkinsville have recently been remodeled and beautified and we now occupy the most commodious quarters in the city. Parents or guardians having the education of the young entrusted to their care, should know of the advantages of the courses we offer. Full particulars regarding rates of tuition, etc., furnished on application. Address, LOCKEYER'S BUSINESS COLLEGE, (Inc.) Hopkinsville, Ky.

Injured by Bicycle.

Walker Wood, Jr., was knocked down by a bicycle last Wednesday. The little fellow was painfully cut and somewhat bruised. Leaving an ice delivery wagon he started across the street and before he knew anything about it he was knocked down by a wheel ridden by a young man. We do not know whether the rider rang his bell or not, but we do know that wheelmen have become very negligent in giving a person a chance to get out of the way by ringing their bells. Careless driving is about as common as ever.

LESS NOISE.

People Getting in Earnest About Suppressing Useless Disturbances.

The article in our Thursday's issue in regard to whistle blowing and other nuisances has been freely commented on and there is talk of the next grand jury being called upon to put an end to some if not all of them. That is the way to go at it. "A hint, to the wise," is said to be sufficient. Sometimes it is, but not always. It is to be hoped that it will not be necessary in any of the cases alluded to, but if it is our people should not hesitate to assert their rights. The more persistent they are the sooner will they get relief.

Goos to Chicago.

Our people will long remember the series of magnificent and inspiring sermons preached at the Tabernacle in this city in the spring of 1905 by Dr. A. C. Dixon. The Dr. was pastor of the Ruggles-street Baptist church of Boston, where he has done a great work. This week he resigned his pastorate and will go to Chicago to take charge of the D. L. Moody church there.

Good to Remember!

Corner 9th and Main Sts

PERSONAL GOSSIP.

Mrs. Claude Slak is visiting friends in Carmi, Ill.
Miss Mary Roche is visiting relatives in Princeton.
Miss Irma Goodwin, of Cerebean, is visiting Mrs. Gentry Wallington.
Miss Mary Belle Giles, of Howell, is the guest of Miss Nell Statham.
Mrs. M. D. Kents and three children, of Garrettsburg, are visiting relatives in Cadiz.
Mr. and Mrs. Tom Baugh have gone to Texas to spend a month with Mr. Baugh's parents.

Mrs. J. H. Anderson and Miss Sallie George Blakey have gone to Atlantic City, N. J.

Rev. W. F. Cashman, of Russellville, has been in the city since Wednesday. He will return today.

Mr. W. W. Radford and wife, of Howell, left here yesterday for Milwaukee, Wis., for a visit to relatives.

Miss Margaret Foulks, of Nashville, is visiting the family of Mr. E. L. Foulks.

Mr. Frank Waller went to Madisonville Thursday to visit his son, Louis. He also spent a day at Dawson.

Judge J. I. Landee left Thursday for Crittenden Springs, where he will remain several days recuperating from a hard year's work.

Mrs. Willie Townes Nixon and Miss Lucy Townes have gone to Texas to spend some time with relatives.

Mr. Jno. B. Trice, accompanied by his sister, Miss Annie Trice, has gone to the Adirondacks to spend the summer.

Mr. J. B. Cravens, who has been suffering from dropsy for some time, left yesterday for Red Bolling Springs, Tenn.

Mrs. Lucy Moore, who has been visiting her sister, Mrs. Eugene Wood, for the past two months, returned to her home in Los Angeles, California, last Thursday.

Miss Katie Mitchell, of this city, and Misses Maude and Myrtle Dawson, of Herndon, are the guests of the family of Mr. Wick Dawson, near Roaring Spring.

Mr. Frank Wilson, the popular salesman for H. C. McGehee, at Gracely, who is taking his vacation, spent Thursday in this city with friends.

Mrs. W. H. Vaughan and daughter, little Miss Pauline, who had been visiting Mrs. Vaughan's mother, Mrs. Fannie King, near Garrettsburg, have returned to their home in Fairview.

Capt. F. C. Gephart and wife will leave tomorrow for New York and Boston for an outing of a month. They will return via Savannah, Ga., taking a trip on the Atlantic from Boston to Savannah.

Revival Services.

The pastor and officers of the First Presbyterian church have arranged with Rev. Terhune to conduct a series of special services in October. This is the third time that Mr. Terhune has been engaged to come here. The first time he came and preached a sermon on Sunday morning. The small-pox scare was then on and the Council was talking of stopping all public gatherings and closing the schools, so it was deemed wise to postpone the services indefinitely. Mr. Terhune named a date about eight months ago to come here and begin a meeting, but a few days before the time for coming he was stricken with fever. Mr. Terhune has had great success in evangelistic work and it is hoped that his third effort to come here will not be interfered with.

SERIOUS FALL

Sustained By Lady Well Known in This City.

Mrs. E. W. Bottomley, of Louisville, was badly injured while attempting to board a street car in Louisville. She fell from the step, breaking her arm near the shoulder. She was also badly bruised. Mrs. Bottomley was preparing to come to this city on a visit to her daughter, Mrs. F. K. Yost.

Successful Operation.

Mr. Henry Baynham's many friends will be glad to learn that the operation for appendicitis was successful. He underwent the operation at the sanitarium without any more fear than he would have had at the amputation of a finger. He was getting along nicely yesterday.

WINNERS OF NEW ERA TRIP

Nineteen Young Ladies Will Visit Mammoth Cave.

START WEDNESDAY.

Mrs. M. H. Nelson by Invitation Will be Chaperone.

The New Era closed its voting contest on the 8th to select 12 young ladies to go on a free trip to Mammoth Cave.

The following were the winners, the first named from the county at large and the rest by districts: Misses Lillie Owen, Mollie Nichols, Florence Tibbs, Nannie Reeder, Sarah Atkins, Alva Lewis, Ledley Logan, Nell Fraser, Eddie Jones, Hattie Wood, Hallie Clark, Mary Thomas.

The following were invited to go, having received more than 8,000 votes: Misses Nannie Walker, Lucile Bush, Dorcas Dillman, Elizabeth Cloud, Jessie Stevenson, Helen Baker, Marguerite Bacon.

Mrs. M. H. Nelson will chaperone the party, which will depart next Wednesday afternoon.

MRS. MITCHELL'S

Mother Died Thursday in Bowling Green.

Mrs. F. J. Mitchell received a message Thursday informing her of the death of her mother, who resided in Bowling Green. The death occurred early Thursday morning and was quite sudden. No further particulars could be obtained. Mrs. Mitchell left at once for Bowling Green.

Telegraphy.

Write now for our Telegraphy catalog. Address, Bowling Green Business University, Bowling Green Ky.

WHY IT IS TO YOUR ADVANTAGE

To keep an account in the Commercial & Savings Bank, Hopkinsville, Ky.

BECAUSE It is a strong, careful, safe, liberal, prompt, accurate and successful institution.

BECAUSE It is the only Savings Bank in this immediate section.

BECAUSE It is a growing, active, progressive, up-to-date bank in every particular.

BECAUSE Your account will be appreciated by the bank and your interests will always be carefully considered.

BECAUSE This bank has an excellent Fire Proof Vault, and a modern burglar proof safe in which to put your funds and papers.

BECAUSE Every depositor is always a welcome visitor at the bank.

BECAUSE This bank studies the needs of its customers and properly takes care of them, whether their business is large or small.

BECAUSE It does an exclusively banking business, and, consequently, nobody can serve you better.

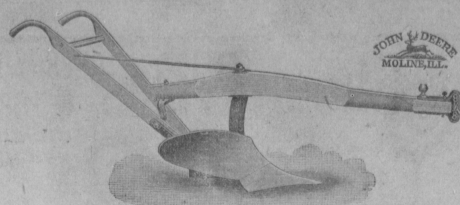

BECAUSE It is in a position to make good investments for you, to collect your drafts or notes, and attend to your banking wants generally.

BECAUSE Its dealings with all customers are absolutely confidential, and it is always ready to assist and advise.

BECAUSE It pays 3 per cent. interest on savings and time deposits, payable semi-annually.

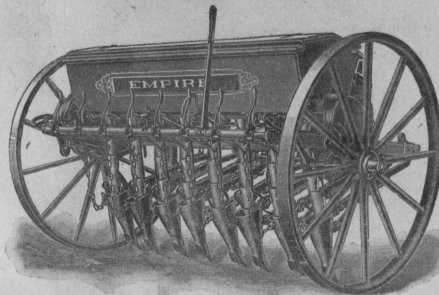

Because We do not believe you can ask for better treatment than this bank will give you and we therefore ask you to write, or call upon Jas. West, president; W. T. Cooper, vice-president; or Gus T. Brannon, cashier, or the Commercial & Savings Bank, Hopkinsville, Kentucky.

WILL START EARLY!

Farmers will probably start early with their fallowing this season. The ground is in splendid condition now, and wheat threshing is over and the marketing of same is well under way. Oliver Chill Plows are staple the world over. They need no advertising; we just simply state that we handle them. Same with "John Deere."

By-the-way, we'll have something interesting to show you in a day or two in the way of a disc plow, different from, and better than, anything yet offered you.

Empire Drills, both hoe and disc, with and without fertilizer attachment, are still the leading implements in that line. We ask that our friends get their order in early for Fertilizer. Bone Meal will be scarce this season.
